Exam

You will write an exam.

- Probably at the date of the last lecture (July 22).
- But I will let you know after confirmation from ISC.

You can bring a calculator and one page with handwritten notes (DIN A4, written on both sides).

Expect similar questions in the exam as in the exercises.

- So prepare the exercises *before* we discuss them in class.
- AI can help you with exercises but not with exam.
